Note 1 Nature of Operations and Significant Accounting Policies

Nature of Operations—Fixed Income Capital Partners LLC (the "Company") buys and sells fixed income securities on a principal basis for institutional customers located throughout the United States, and clears all customer transactions through a clearing broker on a fully disclosed basis. The Company is registered as a broker-dealer with the Securities and Exchange Commission and is also a member of the National Association of Securities Dealers. The Company was formed as an Illinois limited liability company in August 2002, and commenced operations in February 2003.

Use of Estimates—The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Income Recognition—Revenue from principal transactions are recorded on trade date.

Furniture and Equipment—Furniture and equipment are recorded at cost, and depreciated using the straight-line method over the estimated useful life of the assets.

Income Taxes—The Company is taxed as a partnership under the provisions of the Internal Revenue Code and, accordingly, is not subject to federal income taxes. Instead, members are liable for federal income taxes on their respective shares of taxable income.

Fixed Income Capital Partners LLC Notes to the Statement of Financial Condition December 31, 2004

Note 4 Profit Sharing Plan

The Company has a profit sharing plan that covers all employees. Under the provisions of the plan, the Company may elect to make discretionary contributions to the plan.

Note 5 Off-Balance-Sheet Risk

The Company buys and sells fixed income securities on a principal basis for institutional customers and, from time to time, may be exposed to market risk. This risk is generally controlled by monitoring the market and entering into offsetting positions, when appropriate.

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines are monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral or reduce positions where necessary.

Amounts due from the clearing broker represent a concentration of credit risk and primarily relate to principal revenue receivable on securities transactions and deposits. The Company also maintains deposit accounts at a bank that at times exceeds federally insured limits. The Company does not anticipate nonperformance by customers, its clearing broker, or its bank. In addition, the Company has a policy of reviewing, as considered necessary, the clearing broker and bank with which it conducts business.

Note 6 Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain "net capital" of 6-2/3 percent of "aggregate indebtedness" or \$100,000, whichever is greater, as these terms are defined, thereafter.

Net capital and aggregate indebtedness change from day to day, but at December 31, 2004, the Company had net capital and net capital requirements of approximately \$930,000 and \$100,000, respectively. The net capital rule may effectively restrict member distributions.
